Sharing Science with Young Children
Short Course

Would you like support to recognise opportunities for developing scientific knowledge and skills in children by exploring how science is everywhere around us?

In this session, participants will:
- Discuss the importance of science in children’s lives and how science relates to the Early Years Learning Framework
- Explore the opportunities that occur throughout the day for children to observe, predict, experiment, draw conclusions and communicate ideas
- Discover relevant resources (eg. texts, handouts, suggested equipment, relevant websites)

Date: Wednesday 10 June 2015
Time: 6.30pm - 8.30pm
Location: TAFE SA Regency Campus
Cost: $40
Presenter: Shelly Nelson Lecturer, TAFE SA Children’s Services
