What to expect: A leadership retreat designed to nurture you and support you reflect on and carry out your role.

In ‘packing tightly all of ‘the things’ we need to undertake and be successful in our leadership roles, we can lose sight of those ‘spaces between’ that enhance our roles, like too many logs packed too tight in a fire which can douse the flames. What are our ‘spaces between’, those breathing spaces that bring life, like the spaces between the logs of a fire that allow the fire burn with warmth and vigour and how do we nurture them?

This opportunity is time for us to be ‘with ourselves’ and with God away from the environment of busy, frantic and action packed lives. The time will provide an opportunity to ‘Stop, Rest and Reflect’, experiencing personal prayer and reflection time, sharing of experiences and discernment to assist us to explore the personal implications of these challenges.

**A RETREAT EXPERIENCE DESIGNED TO SUPPORT AND NURTURE YOU IN YOUR ROLE AS CS LEADER**
